

TEEN[®]

Common European Framework (CEFR)

TEEN is a language magazine which supports the study of English as a foreign language, following guidelines laid down in the Common European Framework (CEFR). The CEFR divides language learning into three levels (Basic User [A1, A2], Independent User [B1, B2], Proficient User [C1, C2]). TEEN magazine (upper-intermediate level) will take students from B2 to C1.

There are five issues of TEEN, which include a variety of topics developed to stimulate discussion at this upper-intermediate level of English. Each article, or spread, can be adapted to suit your lesson needs, and used either as a stand-alone unit or in conjunction with students' text books. Graded vocabulary and language structures make TEEN an ideal, practical, and up-to-date 'mini English course' for intermediate–advanced students.

TEEN has been structured to:

- **provide ready-to-use lesson units**
- **support independent learning, and encourage students to check their work**
- **prepare for exams in English as a Foreign Language**
- **encourage an interdisciplinary approach to learning**

At the end of a year with TEEN students will have learned key vocabulary in a broad range of current topics, be able to produce written and oral work on a wide variety of subjects, as well as describe their own experiences and express their opinions. They will also be able to read and understand more demanding writing on both concrete and abstract topics.

Structured Learning

Each issue of TEEN is divided into separate learning units. The main focus of these are the Reports on pages 6–7, and revision exercises on pages 14–15. In addition, new vocabulary and grammar are presented throughout the magazine, and many of the learning objectives are presented through

the magazine in a variety of ways. This reinforces learning by:

- providing a clear, thematic approach, using topical and lively subjects designed to be of interest to young adult learners;
- helping students remember new vocabulary and grammar, by presenting it to them a number of times in a variety of contexts;
- getting students to use what they have learned straight away – making passive knowledge active.

Topics covered in Report 2020-2021:

- Issue 1:** Influencers – A New Profession for a New Age
Issue 2: Insects Will Shape our Future
Issue 3: AI for the Environment
Issue 4: Famous Failures
Issue 5: The Education Revolution

The World Around Us

- UK Today (pages 4–5)
- Techno Express (pages 8–9)
- Culture and Society (pages 12–13)

News From The Planet

- Around the World (pages 10–11)

Self Assessment

The games and exercises on pages 14–15 allow students to revise what they have learned, and have fun in the process.

Audio CD

An audio CD featuring recordings of all five TEEN People articles (page 3), and the five Reports (pages 6–7) is provided with the first issue of TEEN 2020–2021.

In this Teacher's Guide you will find:

- **a list of main language areas featured during this year;**
- **photocopiable exercises, with answers;**
- **end of year test, with answers.**

LANGUAGE, GRAMMAR AND VOCABULARY 2020/2021
